Doctors and Clinicians Public Reporting: Background

Purpose of Public Reporting: Doctors and Clinicians

Helps people with Medicare
make informed decisions

Incentivizes clinicians to
maximize performance

Doctors and Clinicians: Legislative History

- The QPP draws its operating authority for public reporting from Section 10331(a)(1) of the Affordable Care Act.
 - Under this authority, CMS developed the Physician Compare website along with the Downloadable Database¹ and initiated a phased approach to public reporting. Section 1848(q)(9)(A) and (D) MACRA facilitates the continuation of this phased approach for publicly reporting doctor and clinician performance information.
- Section 1848(q)(9)(A) and (D) of the Social Security Act requires CMS to publicly report:
 - MIPS eligible clinicians' final score;
 - MIPS eligible clinicians' performance under each MIPS performance category;
 - Names of eligible clinicians in Advanced APMs and, to the extent feasible, the names and performance of such Advanced APMs; and
 - Aggregate information on the MIPS, including the range of final scores and performance category scores for all MIPS eligible clinicians, periodically.

Care Compare and the PDC

- **Care Compare** provides a single source search and compare experience for people with Medicare and their caregivers to find information about doctors, clinicians, and other healthcare providers and settings based on their needs.
- The **PDC** provides researchers and other interested stakeholders direct access to view and download the official data used on Care Compare.

How did the PHE affect MIPS?

- Effect of the PHE on MIPS
 - EUC policy applied to all individual MIPS eligible clinicians for the 2020 performance period.
 - MIPS eligible groups, virtual groups, and APM Entities were able to submit an application to reweight any or all MIPS performance categories if they've been affected by EUCs.
 - Cost performance category will always be weighted at 0%, even if clinicians submitted data for the other performance categories, for the 2020 performance period.
 - For MIPS performance categories that were reweighted to 0% through the EUC policy, if no information was submitted to CMS, no performance information will be publicly reported.
 - The final reweighting and targeted review decisions were applied prior to the 2020 performance information release on Care Compare.
