

Beacon of Hope

A supportive and effective **healthcare system** can assist those on their journey to recovery. Navigating the challenges of substance use can be difficult for individuals.

The visual was derived from various interviews with key interested parties to understand barriers to accessing prevention, treatment, and recovery services for individuals with Substance Use Disorders (SUD).

Establish a trustworthy and accessible healthcare

SOCIAL SUPPORT

Provide equitable care for all

Discuss and provide person-centered treatment, care, and services

Gaps in coverage

Eliminate stigmatizing language

Promote Behavioral Health services

Policy barriers (coverage, payment, regulations, data)

Make counseling and peer support available

Support and empower family & caregivers
